

PhD position: Computational Pharmacology / Bioinformatics

The Institute of Pharmaceutical Sciences at the Faculty of Natural Sciences, **University of Graz**, Austria announces an open position for a

University Assistant without doctorate (Praedoc)

30 hours a week; employment contract for a period of 4 years; submission deadline: Oct 7th 2020

Job specification:

The appointment is located in the division of Pharmaceutical Chemistry at the Institute of Pharmaceutical Sciences, University of Graz, Austria. The successful candidate is expected to extend the bioinformatics focus as integral part of the university framework [Field of Excellence BioHealth](#). This task shall be accomplished by performing independent research and collaborative projects in the field of Computational Pharmacology/Bioinformatics including, but not limited to: computational lipidomics / proteomics, in particular data produced by mass spectrometry, pipelines for integrative OMICS, computational biology, molecular networks, investigation of post-translational protein modifications, genotype to phenotype models.

The offer:

The position will be located in the Computational Pharmacology group headed by Jürgen Hartler. We offer you a job with responsibility and variety. You can expect an enjoyable work climate, flexible work hours and numerous possibilities for further education and personal development. Salary classification is B1 according to the Austrian University Collective Agreement (Universitäten-KV). **Please find further details in the [official announcement](https://jobs.uni-graz.at/de/MB/243/99/6316) at:**

Document requirements:

Please send your application comprising a letter of intent, a full CV, a list of your publications, contact details of at least one person providing reference, and your Diploma/Master certificates in a single pdf to: bewerbung@uni-graz.at.

Inquiries:

Informal inquiries regarding the position should be directed to Jürgen Hartler:
